

Who we are

Carillion is one of the UK's leading integrated support services companies, with a substantial portfolio of Public Private Partnership projects, extensive construction capabilities and a sector-leading ability to deliver sustainable solutions.

Our Vision

Our vision is to be the trusted partner for providing services, delivering infrastructure and creating places that bring lasting benefits to our customers and the communities in which we live and work.

Our Values

We care.
We achieve together.
We improve.
We deliver.

Our Values shape the way we do business, how we work with each other, our customers, our suppliers, our partners and all those with whom we interact when delivering our services.

Where we deliver

We operate in the UK, Canada and the Middle East and North Africa and we employ 46,000 people.

Front cover
Carillion is extending the main stand at Liverpool Football Club's world famous Anfield Stadium under a £75 million contract that will increase the stand's capacity by around 8,500 and the stadium's capacity to some 54,000 - see case study on page 25.

What we do

We have three core capabilities - support services, project finance and construction services - and we use these individually or in combinations to design and deliver sustainable services to meet the specific needs of our customers.

Support services

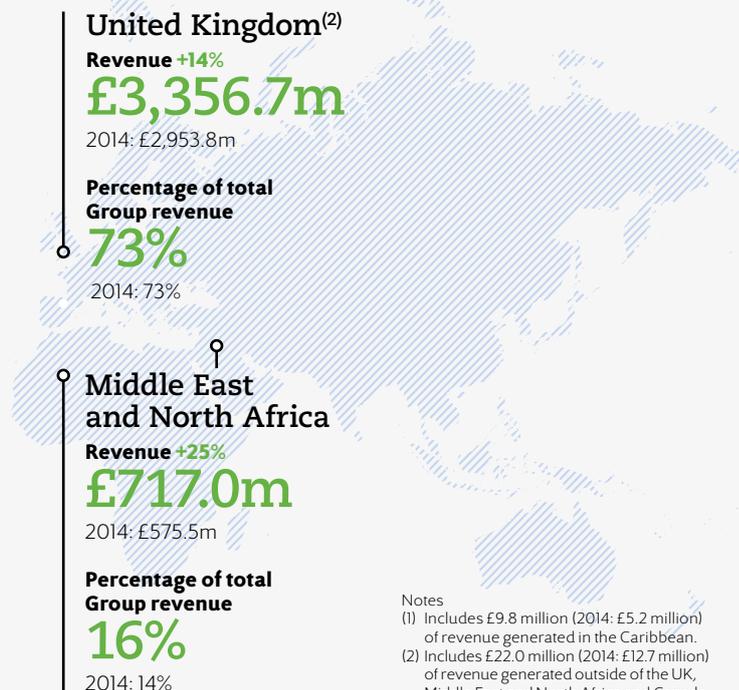

This includes the provision of maintenance, facilities management and energy services for major buildings and large property estates, for both public and private sector customers, infrastructure services for roads, railways and utility networks, notably telecommunications and power transmission and distribution, and remote site accommodation services.

Project finance

This includes arranging the funding for Public Private Partnership projects to deliver public sector buildings and infrastructure, in which we invest equity and for which we win construction and long-term support services contracts.

Construction services

This includes the delivery of a wide range of buildings and infrastructure, focused on large contracts for long-term public and private sector customers for whom quality and reliability are paramount.

Notes
(1) Includes £9.8 million (2014: £5.2 million) of revenue generated in the Caribbean.
(2) Includes £22.0 million (2014: £12.7 million) of revenue generated outside of the UK, Middle East and North Africa and Canada.
